

SOCIAL ENTREPRENEURS - CHANGE MAKERS

SOCIAL ENTREPRENEURSHIP FOR YOUTH WORK aims exploring the concept of social entrepreneurship as an innovative way to solve social problems in youth work using entrepreneurial skills.

Social entrepreneurship is an innovative way of civic engagement and participation, as it offers a chance to enter the public sphere and the labor market at the same time.

It is an attempt to give an appropriate answer to 2 IMPORTANT ISSUES in youth field:

- UNEMPLOYMENT It is a fact, that there is a high percentage of unemployment of young people in EU & EECA countries. We believe that one of the possible answers to the present issue of employability is to promote the engagement and giving the proper tools of social entrepreneurship to project participants.
- SUSTAINABILITY OF NON-PROFIT ORGANIZATIONS (NFO) Most of youth NGOs around Europe and especially in EECA countries are facing the problem of sustainability. Most of them are depended on grants and changing their priorities according to the priorities of foundation.

In order to follow their mission organizations need permanent funding. Social

entrepreneurship can be a response for this challenge, as it is the attempt to draw upon business techniques to find solutions to social problems. This concept may be applied to a variety of organizations with different sizes, aims, and beliefs, including youth organizations, that we are mostly concentrated on.

Main Topics of the Project Aims & Objectives

- To empower young people raising their self-esteem and stimulating their creativity and sense of entrepreneurship;
- To identify participants' perspectives about social entrepreneurship in their own social contexts;
- To extend participants' knowledge about initiative, innovation and creativity and their effect on social work;
- To help participants to reach enterprising qualities that can be used for the public good;
- To encourage the participants to link social work and entrepreneurship as a means of working towards the public good;
- To encourage the participants to become the main actor of sustainable change within their own organization/ community;
- Develop the networking potential of partner organizations and build partnerships that would increase the understanding of the concept of social entrepreneurship and innovation.
